

Examining the Tradeoffs:

Our area has the highest concentration of coal-fired power plants of anywhere in the U.S. Three more coal plants are proposed for our area, in Henderson and Muhlenberg counties in Kentucky and Spencer County, IN. Are these job-creating new technologies to be embraced, or do these plants reflect an unhealthy shortsighted strategy?

A balanced presentation and discussion of the facts, costs, benefits, and potential consequences of these three proposed plants.

Public Forum

March 22, 2010

**The Springs Conference Center
2200 E. Parrish Ave. ■ Owensboro**

5:30 p.m.

**A light supper will be served. For reservations please contact
Kathy Strobel no later than noon, Friday, March 19
